CRUCES CHAMBER OF COMMERCE IS MUCH ALIVE

Meeting to Be Held Next Tuesday—Secretary Coleman Working Hard.

Las Cruces, N. M., Jan. 27.—The regular monthly meeting of all the members of the Mesilla valley chamber of commerce will be held in the armory on Tuesday evening.

The Mesilla valley chamber of commerce has for years been one of the potent factors in keeping up a lively interest in the welfare and upbuilding of the valley and Las Cruces, but unfortunately has not received the loyal support of the citizenship at large as it had reason to expect.

But things have lately taken on a different aspect since A. R. Coleman took the secretariatship. Secretary Coleman hopes to be able to show at this coming meeting an increase in membership of at least 50 percent since he took charge of the office, but that is not where he wants to stop, as the chamber should have at least 300 members, he says, and he will endeavor to build it up to that before the close of the year.

In answer to letters sent to road commissioners in each of the states and territories, the secretary has received much data which will be used in the good roads meeting, which will be held in this city shortly. Dr. Garrison is chairman of this meeting and will go to Santa Fe to arrange with the governor and other parties there who are to take part in this meeting.

HELD IN STABBING CASE AT CRUCES

Enriquez Rodriguez Bound Over by the Justice of the Peace.

Las Cruces, N. M., Jan. 27.—The preliminary hearing of Enriquez Rodriguez for assault upon Jose Estrada was held before Justice of the Peace, and he was bound over to await the action of the grand jury, bail being fixed at \$500.

Rodriguez stabbed Estrada in the stomach with a pocket knife on the night of the 22nd at a dance in the northern part of town. Estrada, although having received a very deep cut, is getting along nicely and it is reported that he will probably be on the street again shortly.

MESILLA COLLEGE NOW HAS A CENTRAL "HELLO"

Las Cruces, N. M., Jan. 27.—At the college there has recently been installed a telephone switchboard in the main office which serves as "central" for all the wire talk to and from the college. Two main lines have been established from Las Cruces to the college, which gives a double service and 15 connections are now in operation and more will be made as needed for the convenience of the different departments.

DO YOU LIKE A GOOD SHOW?
Read The Herald's opinion of "The Lion and the Mouse" and decide for yourself if it is worth seeing tonight.

LAS CRUCES DAILY RECORD.
Las Cruces, N. M., Jan. 27.—The following deeds and other papers of record have been filed with the recorder of Dona Ana county:

Deeds Filed.
W. G. Stewart et ux to E. D. Villalaz, warranty deed to a parcel of land situated about one-half mile north of Las Cruces in Alameda tract, containing seven acres more or less, consideration \$500 and other values; dated Jan. 18, 1910.

Catrina Gonzales to John Gartinan, warranty deed to a tract of land near Dona Ana, area 120 by 135 vars, consideration \$100 and other values; dated Jan. 13, 1910.

C. D. McKee et al to Cecil S. Grebe et al, warranty deed to an undivided two-thirds interest in the west 1/2 of the southwest quarter of section 25 township 25 south range 2 east, containing 30 acres, consideration \$1.00 and other values; dated Sept. 3, 1909.

SCOTT & BOWNE, 409 Pearl St., N. Y.

COLLEGE MAN IS MARRIED AT MESILLA

Class in Astronomy Is Now Studying the Comet.
A. & M. Notes.

Agricultural College, N. M., Jan. 27.—At 4:20 Tuesday afternoon, at the St. James Episcopal church, at Mesilla Park, Frank Isles and Miss Ellen Engblum were united in marriage. Mr. Isles was in the employment of the college in the department of agriculture. Miss Engblum was formerly a nurse, but for the past several months has made her home with Dr. Phillips, of Old Mesilla.

The Rev. Hunter Lewis officiated. They left for El Paso, where they remained one day and continued their journey to Roosevelt, Ariz., where Mr. Isles will assume his new duties in the United States forestry service. Those present at the service were Dr. and Mrs. Garrison, Dr. and Mrs. Phillips, Lew Isles and family, Mrs. Daniels, Miss Lewis, Miss Morton, Mrs. Maciver, J. E. Mundell, Sidney Howard, Leo Young.

Jesus E. Mundell gave a farewell "stap" reception to Frank Isles. Those present were: Frank Isles, J. E. Mundell, Burton Pitt, F. E. Wolf, Harry Schütz and W. G. Campbell.

A lemon pie feast was given in the social room of the Y. M. C. A. Wednesday afternoon. The supply of pies was obtained from the domestic science department. John Jennings stands the undisputed champion pie eater of the college.

The Apollo club has initiated into its organization the following students: Joe Preke, Ferner Clayton, Stuart Baker, and Bob Roberts.

During basketball practice Wednesday evening Arner Elde a forward on the first team met with a very painful accident. He collided with another player and as a result received a deep gash just over his eyebrow. He was taken to Las Cruces to a physician who was forced to make several stitches to close the gash.

The Agricultural club held its regular weekly meeting Wednesday evening. The club's business was hurriedly gone through with, the discussions were cut short, and then a social event was planned for February 12.

Basketball Games.
The girls are practicing hard this week for Saturday's basketball game at Silver City. The girls will play the same positions as at El Paso against the High school. The delegation leaves here on Friday evening.

On Friday evening, in Hadley hall, will be played the first interclass basketball game of the season. The freshman class will play the entire preparatory department. The rivalry is growing intense and some good amusement is promised.

While en route from El Paso to the college, William E. Campbell, assistant manager of the "Round Up," lost a pocketbook containing money, money order, receipts, cards, bills and in all valued at nearly \$100. The following day he telegraphed to the college officials at Albuquerque notifying them of his loss. He immediately received a wire stating the valuables had been handed to the claim agent by the train porter and would be returned to him at once.

Form Realty Company.
Claude P. Henry and Dr. Campbell, of Las Cruces have formed a realty company and will open offices soon. They recently acquired the Bjergsgard tract of 11 acres. It will be known from now on as the "Soft Water Valley," owing to the quality of the water. A \$600 house, a corral and other outbuildings, a well and a tank now stand upon the tract. The land is well watered by an irrigation of some \$1500. The land will be laid off in lots and offered for sale.

A class in astronomy has been formed under professor Hagerty. It is following the movements of the comet. The comet grows larger daily and remains in view longer. The class in its study uses telescopes, surveying instruments and field glasses.

SPLENDID RECORDS IN LAS CRUCES CLERK'S OFFICE
Las Cruces, N. M., Jan. 27.—Probate clerk Isidoro Armijo has just received another shipment of loose leaf record books which he considers the best in any recorder's office in the territory.

Dona Ana county has good cause to be proud of the condition of the records, as they are now kept. Every paper that comes into the office is numbered to correspond with its record in a reception book and its recording place can always be found by simply referring to the number in the reception book.

The loose leaf records just received are supplied with pages printed on the blank of the standard form and all that is necessary to record an instrument is to fill in the blank, just as a deed is made.

Las Cruces Personal.
Las Cruces, N. M., Jan. 27.—F. M. Gallaghe, of El Paso, is in the city attending to various business matters.

Dr. C. L. Hill, of Hillsdale ranch, was in the city yesterday getting a

supply of provisions and farming implements for his ranch.

B. L. Berkey, of the Las Cruces Electric Light and Ice Co., has returned from a two-weeks' trip into Mexico.

D. S. Myttinger went down to El Paso this forenoon on business.

T. C. Phillips, manager of the Mesilla Valley Produce Exchange, is in El Paso today.

James T. Smith is in El Paso today on business.

Don Nestor Armijo went down to El Paso this forenoon.

LAS CRUCES HOTEL ARRIVALS.
Las Cruces, N. M., Jan. 27.—The following are registered at the Hotel Don Barnard: A. L. Sumptford, Silverport, La.; G. Hutchinson, Denver; Mrs. M. F. Dever, Denver; R. O. Casler, El Paso; J. C. Hohelmer, Albuquerque; D. E. Taylor, Dallas; W. S. Myers, Denver.

Arrivals: C. M. Wayland, El Paso; William Thompson, Tularosa; Wm. Maher, Albuquerque.

RAILROAD NEWS.

THE SOUTHWESTERN PUTS ON MORE MEN AT CARRIZO

Shop Force Is Now Working Ten Hours—Carrizozo Railroad News.

Carrizozo, N. M., Jan. 27.—In order to handle the increase in freight business and the new passenger trains, the Southwestern has materially increased the force here at the shops and increased the working hours from nine to 10 hours a day.

B. D. Humphries has been employed as stationary engineer.

Stanley Holder has resigned his position as stationary engineer and has gone to Alamogordo to live.

Ellis Crawford has taken a position in the shops here.

General purchasing agent F. L. Hunter and general storekeeper L. G. Pearson of the Southwestern, are here from El Paso.

Leon Howell, of El Paso, has taken a position in the shops as machinist.

Engineers Hudnal and Harris have been transferred to El Paso, and will move there with their families at an early date.

A night switch engine has been put on here in order to handle the increase of trains.

Car Mechanic S. F. Miller is at Ancho inspecting cars recently wrecked at that point.

J. B. Humphrey has been employed as car repairer in the car department.

Fireman M. L. Hall is in Alamogordo on the Cloudcroft run.

Night roundhouse foreman George W. Sharpe is confined to his room on account of a severe case of pneumonia.

Engineer C. A. McMullen has been transferred from Tucuman to Carrizozo.

Fireman F. E. Eschling has gone to Tucuman to work out of that point.

Hostler C. F. Anderson has returned from a trip to El Paso.

Engineer H. W. Loggins and wife have returned from an extended trip to San Antonio.

Road foreman of engineers A. L. Bartz, of El Paso, is here today.

Isaac Kline, immigration agent of the Rock Island, has returned to Chicago after spending several days here getting data and taking views of points of interest in and around Carrizozo to be used in a new publication to be issued by the immigration department of the Rock Island.

RAILROAD MEN TEST NEW INVENTION OF AIR VALVE

A Globe Man Has a Patent Angle Cock That Holds Brakes Fast.

Globe, Ariz., Jan. 27.—Before a large gathering of experienced railroad men and experts of the study of air appliances, W. D. Kendrick, inventor of the Kendrick improved valve, gave a demonstration of the workings of the device near the Old Dominion smelter.

Brakes Hold Fast.
This was the first attempt ever made to test thoroughly the real value of the new invention. Two valves were placed between the first and second cars back of the engine. This place was chosen in preference to the rear of the train, as the strong pressure from the powerful air pumps on the engine would bring out any false presentation which might have been claimed by the inventor. Five cars were placed in the opposite direction from the engine and the valves. When the valve operating the rear of the train was closed, and the other valve which controlled the front part of the train was opened, 90 pounds of air to try to release the air brakes, but without avail, the brakes were set and it was impossible for the powerful pump on the engine to pump air fast enough to release them.

When Mr. Kendrick was ready to let the engineer release the brakes, he simply turned the handle of the angle cock and the brakes promptly responded.

Many Uses for Valve.
This invention relates to angle cocks or valves used especially on air brake systems. Angle cock have heretofore been made the hose when the hose is closed, for the purpose of exhausting the air pressure in a detached car or the like. It is sometimes desired to retain the pressure in the hose when the train is to be moved. The object of this invention, says the inventor, is to provide a simple and novel device by means of which air can be either retained in the hose or released, by movement of the handle of the angle cock.

The invention has a further object in that it provides means for allowing the escape of moisture or water from the train line, permitting it to be either blown out or to run out without pressure.

The uses to which the invention may be put, are necessarily varied, but in the mind of the inventor, the most important ones are those in connection with the hose when the hose is closed, to take the steam out preparatory to parting the hose, which latter operation, by the present method, is considered dangerous.

ONLY NECESSARY TO TREAT THE STOMACH, SAYS COOPER

The new theory advanced by L. T. Cooper relative to the human stomach has attracted such widespread attention that the public in cities visited by the young man has been joined by many physicians in a discussion of his beliefs and medicines.

Mr. Cooper says that human health is dependent almost entirely upon the stomach. He says that no disease can be conquered without first alleviating all stomach disorders. He further says that most men and women of this generation are half-died, owing to indigestion, stomachs. And lastly, he claims this his New Discovery medicine will rejuvenate the human stomach in 90 days.

Cooper has been traveling from one city to another conducting in each what he calls a campaign of education. For the past year he has met the public in the larger cities of the country, and his success has been phenomenal. Thousands of people have flocked to his headquarters wherever he has gone, and the sale of his medicine has been beyond anything of the kind ever before witnessed.

Possibly the most interesting feature of the attention this young man has attracted is what his army of followers, whom he has converted to his beliefs through his medicines, have to say on the subject. The following statements are from two well known residents of Chicago and Boston, respectively.

"The enthusiasm of these is characteristic of Cooper's admirers generally."

Mrs. H. B. Mack, of 2201 State street, Chicago, says: "I have been suffering for 12 years from a combination of stomach troubles, catarrh and constipation. I had a gnawing pain in the pit of my stomach, a sort of a dull pain that I could not quite understand. Then

there was a dull headache, and my mind seemed to be wandering continually. I could not eat, and what little solid food I did eat I could not retain on my stomach. I tried every remedy I could think of, and also tried out a number of patent medicines, but without any apparent result. It was through one of my friends that I heard of Cooper's preparation, and I immediately decided to try some of it. It is two weeks since I took my first dose of it, and I feel like a new woman. The headache I used to have disappeared, and the pain in my stomach along with it. The medicine is worth its weight in gold, and I want to thank Mr. Cooper for he has done for me."

Mr. Edwin F. Morse, of 29 Oakley street, Dorchester, a suburb of Boston, says: "For three years I had not a well day. My stomach was in frightful shape; the mere thought of food would nauseate me, and I really had a horror of anything to eat. All solid food would cause me extreme indigestion, bloating and gas on my stomach, and nothing tasted right. Some time ago I got some of this Cooper's medicines, about which there is so much talk. I actually feel as well and strong as a boy ever since the first bottle. Every sign of stomach trouble has disappeared, and I have a hearty appetite and eat three square meals; everything seems to taste good. Anyone who knows what chronic indigestion is can appreciate what it means to me. I consider this the most remarkable medicine I ever heard of."

Cooper's New Discovery is sold by all druggists. If your druggist cannot supply you, we will forward you the name of a druggist in your city who will. Don't accept "something just as good."

The Cooper Medicine Co., Dayton, Ohio.

MEXICO BANK DECIDES UPON RECEIVERSHIP

Mexico City, Mex., Jan. 27.—At a meeting of the directors of the United States Banking company, a receivership for the bank was decided upon, the institution having failed to open its doors. Branches of the United States Banking company at Oaxaca and Parra have also suspended.

The direct cause of the suspension here was the extending of too large a credit to the Mexican National Packing company. Drafts aggregating more than four million pesos, owned by this firm, went to protest last week.

STONES ARE HURLED AT G. H. PASSENGER

Switch Lights Are Demolished—Rangers May Make Arrests.

Who has it in for the G. H. & S. A. railway? Officials believe it is mere juvenile maleduceness. The rangers have been asked to find what it really is.

Not only have two apparent attempts been made to wreck trains by the placing of rail ties across the track near Del Rio, but the rocking and breaking of switch lights has become a common pastime. Recently switch lights have been broken by stones, and this endangers the lives of passengers and freight crews as well as the tie habit.

The rocking and breaking of switch lights has occurred in East El Paso. A passenger train suffered two broken windows in the coaches recently, while passing between the brewery and the stock yards. It is known that in one case switch lights were broken by school boys, and it is believed that the whole trouble lies with juveniles.

When any person, boy or man, is caught stoning trains, or demolishing switch lights, an example will be made of the case.

SPECIAL RATES ARE MADE ON SOUTHWESTERN TRAINS.
Special rates of two-thirds off have been made from all points for the Layman's missionary movement meeting in El Paso February 24 to 28.

The Arizona Masonic grand lodge will meet in Tucson February 8 to 13 and the E. P. & S. W. are offering special rates of one and one-third fare from all Arizona points. The Southern Pacific will reduce rates accordingly from El Paso.

The home-spreaders' excursions have been resumed with February 1 and 15 as fixed dates. The eastern tourist traffic has been arriving on no regular schedule since the first of the year.

ABOUT RAILROAD PEOPLE.

O. L. Graham, S. P. brakeman, is sick.

J. E. Gibbons, Southern Pacific brakeman, has been transferred from Tucson to a local run.

S. C. Gardner, assistant superintendent of the Pullman company here, is on a tour of inspection of National Railways of Mexico.

Hugh Gough, G. H. passenger brakeman, is on duty again. H. E. Bowles, who has been on relief, has returned to his freight run.

A reduction of 25 cents a hundred pounds on cranberries, or between \$35 and \$35 a car, has been made between New York and El Paso.

R. E. Dunlap receives the information of the reduction this morning in a communication from the traffic department of the Southern Pacific and the Morgan steamship line. He made the request the interest of local shippers and cranberries were changed from a fourth class classification to a class A rating.

WHEN DINNER TIME COMES.
One Ought to Have a Good Appetite.

A good appetite is the best success. It goes a long way toward helping in the digestive process, and that is absolutely essential to health and strength.

Many persons have found that Grape-Nuts food is not only nourishing but is a great appetizer. Even children like the taste of it and grow strong and rosy from its use.

It is especially the food to make a weak stomach strong and create an appetite for dinner.

"I am 57 years old," writes a Tennessee grandmother, "and have had a weak stomach from childhood. By great care as to my diet I enjoyed a reasonable degree of health, but never found anything to equal Grape-Nuts as a standard."

"When I have no appetite for breakfast and just eat to keep up my strength, I take 4 teaspoonsful of Grape-Nuts with good rich milk, and when dinner comes I am hungry. While I go without any breakfast I never feel like eating dinner. Grape-Nuts for breakfast seems to make a healthy appetite for dinner."

"My little 18-month-old grandson had been very sick with stomach trouble during the past summer, and finally we put him on Grape-Nuts. Now he is growing plump and well. When asked if he wants his nurse or Grape-Nuts, he brightens up and points to the cupboard. He was no trouble to wean at all—thanks to Grape-Nuts." Read the little book, "The Road to Wellville," in pkgs.

"There's a Reason."

Ever read the above letter? A new appetizer from time to time. They are genuine, true, and full of human interest.

Ever read the above letter? A new appetizer from time to time. They are genuine, true, and full of human interest.
